PRESENTATION OF THE STUDY TO THE RESPONDENTS

Hello, my name is I am taking part in a study about migration between Africa and various countries in Europe, and on links between people living in Ghana, and their families who live abroad.

Before we start, I'd like to briefly present the study to you, and inform you about your rights.

This study has been organised by the University of Ghana, and several European universities including Sussex (in the UK) and Maastricht (in the Netherlands).

WHY THIS STUDY? → Hand out the INFORMATION LEAFLET and present the study

For a number of years, African migration has been a major issue of public debate - in politics and the media, both in Africa and in Europe. However, this debate is often not based on real evidence, but rather on opinions.

In fact, the scale and causes of migration from Ghana/Congo to Europe are not very well known. We also don't know the real impacts of migration on the living conditions of Ghanaian families or on Ghana's national development.

In this study, which is organised by both Ghanaian and European researchers, we would like to produce statistical data based on the real life experiences of Ghanaian people.

We hope that this data will help us to understand migration better, including its effects on Ghana. The findings will be used to contribute to public debates in Ghana and Europe, including debates on migration and development policies.

HOW IS THIS GOING TO HAPPEN?

To carry out this study, **we will meet people with very different migration experiences**: people who have always stayed in Ghana; people who've lived abroad but have gone back to Ghana; and people who remain in Europe,

A study on households in Accra and Kumasi has already begun, and is being carried out alongside this study.

Today, this questionnaire involves questions about you, **your life**. There are questions about the places you have lived since your childhood; about your occupations and family life; the trips you have made abroad; and so on. All these questions will allow us to look at the relationships between **whether people migrate or not**, and their economic and family circumstances.

Since everyone's experiences are different, the **duration of the interview** varies – it should be between half an hour, and a maximum of two hours, depending on your individual life history.

RIGHTS AND CONFIDENTIALITY OF ANSWERS

If a question makes you feel uneasy, **you are not obliged to answer**. You can stop the interview at any time.

We guarantee that all the information you provide us with will be kept **confidential**.

Your name and address are not recorded in the questionnaire – except your first name, so nobody will be able to identify you from the information that you give me.

Before we start: **do you have any questions?**

Once any questions are answered ... Is it OK for me to continue with the interview?

We will now talk about what you have been doing since your childhood: I would like to ask you about the periods of STUDIES, of PROFESSIONAL TRAINING, of WORK, at HOME or if you were UNEMPLOYED, etc.

Note in the grid the primary activities lasting at least for 1 year (or equivalent duration to one academic year). Indicate, if there is enough space; the shorter activity periods in the column titled "Comments and Specifications" e.g. 5 months unemployed after dismissal.

- **1st activity / inactivity: What did you do at the age of 6? What was your primary occupation?**
GRID: Note the primary activity at 6 years: "school", "tended the flock"; "at home" ...
- **Until when did you continue (adjust) going to school / staying at home / tending the flock...?**
GRID: Locate the year where the first change in the occupation occurs and draw an arrow to the 2nd occupation.
- **2nd activity / inactivity: And then; what did you do? And until when?**
GRID: Note the new activity or inactivity at the line of the year when it begins and draw an arrow to the 3rd occupation.
- Continue in the same way for each activity or inactivity period, up to the respondent's current situation.

ATTENTION: Always start a new activity period when Ego changes country, even if his or her activity remains the same.

Study periods
